

# Amaldas M

Highly creative python full stack devoloper

📍 Kurinhaliyode, Vadakara,Calicut 📞 [8921359742](tel:8921359742) @ [amaldasm3983@gmail.com](mailto:amaldasm3983@gmail.com)

Objective	Motivated Python Fullstack Developer with a strong foundation in frontend and backend technologies. Eager to contribute to dynamic projects and deliver high-quality solutions.		
Interships	<b>Oneteam Solutions</b> Full Stack Python Django With React		
Education	<b>Toc H Institute of Science and Technology</b> Computer Science	<b>2019-08-13 - 2023-06-28</b> B Tech	
Projects	<b>Air quality analyzer with time series based dashboard</b> - Real-Time Air Quality Analyzer" is a device or system that measures and analyzes the quality of the air in real-time. This system can measure various air pollutants such as particulate matter, nitrogen oxides, carbon monoxide, sulfur dioxide, and ozone, among others. The data collected by the analyzer can be used to monitor and control air pollution levels, as well as to inform the public about the air quality in their area.		
Key Skills	<b>Python Full Stack Development</b>  <b>Frontend Development (HTML, CSS, JavaScript)</b>  <b>Backend Development (Python, Django)</b>  <b>Responsive Web Design (Bootstrap)</b>  <b>jQuery for interactive web applications</b>  <b>Database Management Systems (MySQL)</b>		
Certifications	<b>Programming with Python 3.X</b> Agile Training Simplilearn  The "Programming with Python 3.X" certificate demonstrates that the holder has completed a comprehensive training program in the latest version of Python (version 3.X). This training covers a wide range of topics including basic and advanced programming concepts in Python, with a focus on practical applications such as web development, data analysis, and automation. Completing the training showcases a strong foundation in the Python programming language and a commitment to professional development.
