Projects

Portfolioforge
PortfolioForge is a web application that enables users to create interactive portfolios. It helps for showcasing work, skills, and achievements in a visually engaging and user-friendly manner, making it ideal for professionals and creatives looking to present their portfolios online.

Food4U
Food4U is a web application designed for food ordering. It allows users to browse menus and place orders in a user friendly interface.

Air quality analyzer with time series based dashboard   -
The "Real-Time Air Quality Analyzer" measures and analyzes air pollutants like particulate matter, nitrogen oxides, carbon monoxide, sulfur dioxide, and ozone in real-time. It helps monitor and control air pollution levels and informs the public about local air quality.
